Aqueous Technologies Appoint Accelonix as Distributor

Rancho Cucamonga, CA — Aqueous Technologies Corporation announces the appointment of Accelonix Sarl. as its distributor, representing the company in France, Algeria, Morocco and Tunisia.

Accelonix is a member of the Accelonix Group of companies with headquarters in France and is a solution provider for applications including EMC/RF, PCB test and assembly, device programming, and advanced microelectronics packaging equipment. The company will represent Aqueous Technologies' entire equipment range of defluxing systems, stencil cleaning systems and cleanliness testers. This also will include the newly launched Trident Automatic Defluxing and Cleanliness Testing System.

“Our range of equipment is a perfect addition to Accelonix’s existing portfolio,” said Chris Halliwell, Aqueous Technologies European Sales Manager. “It is of utmost importance that customers receive the highest level of service and support and Accelonix has an impressive team of individuals in each of these regions. They have also demonstrated excellent customer relationships and technical expertise and we are delighted to be partnering with them.”

“The companies we work with are all market leaders in their fields,” added Jonathan Hall, Managing Director of Accelonix in France. “Aqueous Technologies has a highly successful, award winning range of equipment and we are extremely pleased to be representing them.”
