FOR IMMEDIATE RELEASE

Aqueous Technologies Announces Third Installment in E-Learning Presentation Series

RANCHO CUCAMONGA, CA — January 2, 2008 — Aqueous Technologies Corp. announces the release of its newest E-Learning Presentation: Trident Automatic Defluxing and Cleanliness Testing System.

The Trident E-Learning presentation is a 17-minute self-paced, in-depth presentation covering the following Trident topics:

- Control Technology
- Cleaning Technology
- Cleanliness Testing Technology
- Drying Technology
- Discharge Configurations
- Throughput Configurations
- General Features

Aqueous Technologies' E-Learning presentations may be viewed at the visitor's leisure. If, during the presentation the visitor gets interrupted, the presentation can be stopped and viewed later. The E-Learning center will automatically remember where the visitor left off and will resume when his/her return. Additionally, the viewer may navigate to specific sections of the presentations at will.

The Trident E-Learning presentation is the third in an E-Learning series produced by Aqueous Technologies. Other E-Learning topics include Introduction to C3 Localized Cleanliness Tester and An Explanation of Dynamic-vs-Static Technology and Equivalency Values.

All E-Learning presentations are published on the Aqueous Web site and are available for viewing. Links to the complete series of E-Learning presentations follow:
